

Bin Vent Dust Collector Specifications

The Beltech line of silo Binvents are an efficient, low maintenance, pulse cartridge style system, manufactured to match your silo loading method and required exhaust volumes. Units can either be pressure exhaust for sealed silos or fan-powered exhaust for open, belt loaded silos. This bin vent design utilizes the state of the art technologies in filter design, cleaning system, compressed air cleaning and filter installation, to ensure easy maintenance and minimum unit size and cost.

Our engineering and maintenance experience, has allowed us to simplify our design that to be efficient, durable, and maintenance friendly

If silo dust emissions or filter replacement are constant issues at your facilities, the Beltech Binvent will be your answer.
