POWERHOUSE VACUUM

The **Enviro-Vac™** Vacuum Attachment is one auto detail tool that is simply **A MUST HAVE TOOL. LIGHTNING FAST and EXTREMELY EFFECTIVE.** The beater on demand is key as it whips loose the embedded dirt clinging to the carpet fibre roots while it quickly suctions it away. The result is an amazing clean carpet that is now prepared for the next "Enviro Tool" the **Enviro-Foamer™**.

The **Enviro-Vac™** comes complete with various attachments that will adapt to any shop vacuum and a long narrow tip that allows for vacuuming hard to reach areas.

The **Enviro-Vac™** will outperform any shop vacuum as far as dirt extraction goes. The **"air glide" vacuuming** allows users to work tirelessly improving cleaning times and efficiencies.
