

ACADEMIC EXCELLENCE

St. Anselm is committed to providing not only a Catholic education, but an excellent one. The school promotes academic excellence with an emphasis on collaborative learning and commitment to Science, Technology, Engineering, and Math (STEM) and to the more expansive Science, Technology, Religion, Engineering, Arts, and Math (STREAM). Our students find themselves very well prepared for the demands of math and science in high school and beyond and for the challenges of living in faith throughout their lives.

MEETING THE NEEDS OF ALL LEARNERS

St. Anselm School is invested in making sure all students are able to experience the full benefit of a Catholic education.

We value and embrace every student, including those on the autism spectrum and those with any other learning disabilities.

"We are so grateful for the opportunity for our children to attend St. Anselm School. They receive a top-notch, quality education intertwined with the principals of our faith. The small school community is a blessing and affords individualized care, attention and instruction for our children. We love that the sense of community and learning extends beyond the classroom through Church, sports, extracurriculars, and family-based events."

-Mrs. Lindsay Svarovsky, St. Anselm Parent
