CMA Info

A Comparative Market Analysis is a crucial tool in the real estate industry, providing an estimate of a property's value based on similar, recently sold properties in the same area. The CMA takes into account various factors such as the property's size, condition, location, and features, as well as market conditions and trends. It's typically used by real estate agents to help set a competitive price for selling or buying a property.

AnyDesk

AnyDesk is a legitimate software tool that allows people to remotely view and control computers and mobile devices. For example, if an employee at a large company has a technical issue, someone on the IT team can use AnyDesk to “take over” the device and diagnose the problem. This is what we will use to help you remotely with urgent technical issue.
