

## **Mentor Guidelines**

Mentees understand that you are volunteers, so they don't have unreasonable expectations.

Feel free to respond in your own time when you're asked questions.

Keep discussions to aviation themes.

Try not to be cynical about airline managements or the future of aviation even if you have a view on this. Save that for your compatriots.

It is ok to have more than one mentee if you so desire. Let me know if this is your wish.
