"Trough faith we succeed"

Highpoint Service Centre and Panelbeaters is committed to providing the best possible service solutions for your business.

Focusing on real added value, customers can expect to take their companies to the highest levels of productivity and profit.

GEARBOXES & HYDRAULIC SYSTEMS

Highpoint Service Centre and Panelbeaters in Sasolburg specialises in gearboxes and differentials.

Our Technicians are trained to refurbish most common gearboxes.

Our main focus is to exchange gearboxes so we can get you back on the road faster.

We have a fully equipped gearbox workshop where we have specialized tools designed to remove and replace gearboxes effortlessly.

Our Technicians are also supplied with good quality tooling to be able to work more efficiently.

We can also assist with hydraulic systems, Cylinder refurbishments or replacements

SERVICES

We do maintenance and services on all brands. Not only on trucks, but we aim to service your entire company fleet. Including busses, cars, bakkies, fork lifts, earth moving equipments, trailers etc.

Our technician are extensively skilled in all other truck brands as well. They have years of experience and is therefore more than equipped to do faultfinding repairs and services on any truck brand.

TATA | HINO | MERCEDEZ BENZ | IZUZU | IVECO | VOLVO | SCANIA | MAN

PARTS

We are able to assist with any truck brand parts on short notice to assist our customers, including gearbox PTO's and engine PTO's.

We only use quality brand filters and oil according to vehicle specs.

BREAKDOWNS 24/7

We offer our clients a 24/7 breakdown service. We have technicians on standby to assist our customers with breakdowns to get your trucks back on the road asap. We keep batteries in stock at our workshop and is able to assist with faulty battery problems any time anywhere.

Towing can be arranged on behalf of our customers.

We encourage our customers with large fleets to set up an agreement with us to assist your business specifically with breakdowns, to ensure there is always someone available to assist when you need it.

ON SITE SERVICES

We are also able to assist customers with site services, where our Technicians comes to the site where your truck is located to do maintenance and services. This saves our customers time, by not having to remove the truck from the sites where they are doing business.

Our breakdown and site service vehicle is equipped with all that is needed to effectively attend to breakdowns and site services.

ADDITIONAL SERVICES

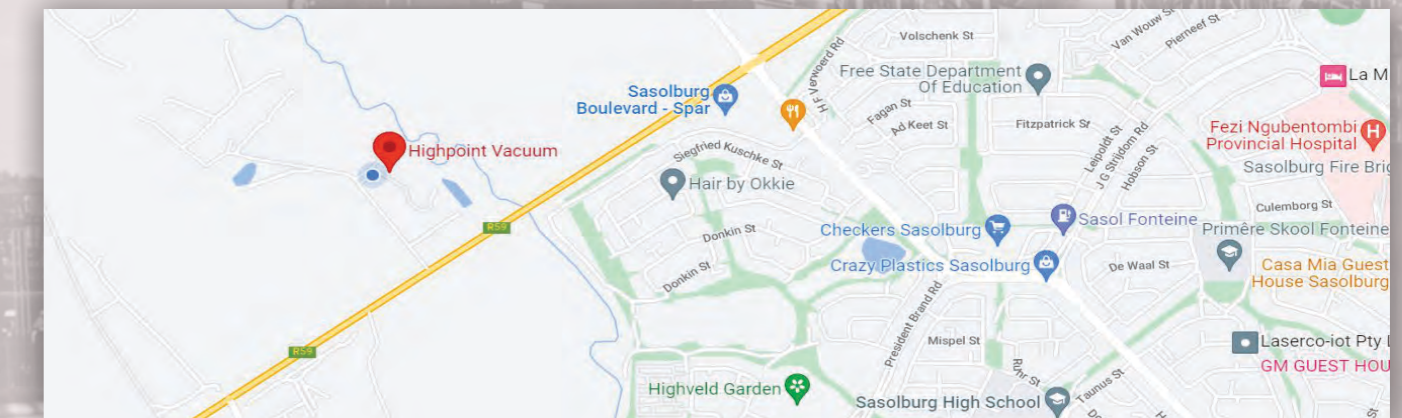

As additional services to our customers we are able to assist with on site wheel alignment and balancing when your truck is in our workshop. We have an onsite auto electrician with extensive knowledge.

We can also assist with windscreen and Tyre replacement for the convenience of our client.

LOCATION

We are conveniently situated in Sasolburg on the R59 towards Parys.

MAINTENANCE AND PANELBEATING

We have a complete Fabrication and Machining workshop.

We can assist clients with any modifications and refurbishment on any form of back end body builds depending on what the truck or trailer is used for.

We specialise in refurbishing complete vacuum units and pressure pump systems.

We also have a truck size spraybooth on site to do minor or major paintwork and body work.

We are approved truck (commercial) panelbeaters and work with most insurance companies. Trucks that were involved in accidents, are repaired to look brand new again.
