

THE COMPANY PHYLOSOPHY

Highpoint UD Vaal strives to provide excellent quality services in the most effective time to get your trucks back on the road as soon as possible.

We understand that standing time for your truck means loss of income for our customers. Therefor we take every measure possible to ensure your trucks are repaired, serviced or modified in the shortest possible times.

Our team of highly skilled technicians is ready 24/7 to assist you.

Our stores are well stocked to assist with breakdown parts.

We have an extensive network of truck parts suppliers to assist with all truck brand parts.

When your truck breaks down, Highpoint UD Vaal is there to get you back on route.

UD TRUCKS

Highpoint Group

"Trough faith we succeed"

Highpoint UD Vaal is committed to providing the best possible service solutions for your business.

Focusing on real added value, customers can expect to take their companies to the highest levels of productivity and profit.

GEARBOXES

Highpoint UD Vaal in Sasolburg is one of the first dealers to specialise in gearboxes and differentials.

Our Technicians are trained to refurbish not only UD gearboxes but also other brand gearboxes and diffs.

Our main focus is to exchange gearboxes so we can get you back on the road faster.

We have a fully equipped gearbox workshop where we have specialized tools designed to remove and replace gearboxes effortlessly.

Our Technicians are also supplied with good quality tooling to be able to work more efficiently.

SERVICES

We are an Approved UD Service Dealership. Therefore we service all UD Trucks with or without maintenance plans and active warranties.

Our technician are extensively skilled in all other truck brands as well. They have years of experience and is therefore more than equipped to do faultfinding repairs and services on any truck brand.

PART SALES

We have broad range of UD Truck parts available on our premises. We are available 24/7 for emergency part sales.

We are also able to assist with other truck brand parts on short notice to assist our customers.

We keep stock of a wide variety including engine PTOs and Gearbox PTOs.

BREAKDOWN SITE SERVICES

We offer our clients a 24/7 breakdown service. We have technicians on standby to assist our customers with breakdowns to get your trucks back on the road asap. We keep batteries in stock at our workshop and is able to assist with faulty battery problems any time anywhere.

We encourage our customers with large fleets to set up an agreement with us to assist your business specifically with breakdowns, to ensure there is always someone available to assist when you need it.

We are also able to assist customers with site services, where our Technicians comes to the site where your truck is located to do maintenance and services. This saves our customers time, by not having to remove the truck from the sites where they are doing business.

Our breakdown and site service vehicle is equipped with all that is needed to effectively attend to breakdowns and site services.

ADDITIONAL SERVICES

As additional services to our customers we are able to assist with on site wheel alignment and balancing when your truck is in our workshop.

We can also assist with windscreen sourcing and Tyre sourcing for the convenience of our client.

LOCATION & ENTRANCE

We are conveniently situated in Sasolburg on the R59 towards Parys.

MAINTENANCE

We have a complete Fabrication and Machining workshop on our premises.

We can assist clients with any modifications and rework on any form of back end body builds depending on what the truck is used for.

We also specialise in hydraulic systems, vacuum units and pressure pump systems.

We also have a truck size spraybooth on site to do minor or major paintwork and body work.
