SSAA NSW NRB PRESIDENTS REPORT AUGUST 2022

17th August 2022

SSAA NSW NRB Committee
SSAA NSW NRB Members

As you would all be aware we still have members recovering from the recent floods and may still require assistance, so please reach out if you need anything or can offer help to those members who may need it.

The committee and club members have been very active over the last couple of months installing new numbers on the back mound and baffles, working on a green and red signalling system, a weather station that will allow the committee to be able to see the conditions of the range from afar, security cameras, Wi-Fi at the Purcell range, new flag poles to have all our flags on display and even some painting and stormwater connection at the Purcell range.

The club has also received some kind donations of chairs, table and fridges.

The turning targets for the Purcell range is still a work in progress thanks to another club member.

The clubs bin service is also working well and again thank you to the members who assist with this on a continual basis.

The disability car park at the back range has also been increased in size to give our members who require it more space. Once again thanks to our members who have donated their time and effort to make these upgrades happen.

I would personally like to thank everyone involved in making these upgrades possible by either donating items and or their time. It's greatly appreciated.

In addition to this the shed extension at the back range still has the DA pending as the club is waiting on a letter of approval/permission letter from Crown Lands to be able to complete the online application, many thanks to the secretary for the efforts with this process.

Stayed tuned for more updates on the club's future projects.

On another note, the treasurer is still waiting to hear news regarding the club's insurance claim, it may be declined at this stage, however, it was worth the effort and time to at least attempt to recover lost and damaged stock such as targets.

The club has had a RO training and refresher day held last month and as a result of that the club has four ROs refreshed and six new range officers waiting to be signed off on their training. Again, many thanks to the clubs Armourer and the club members for donating their time and volunteering. A list of attendants can be offered upon request.

Other great news to share is that the club held the NSW Lever Action State Title in April-May this year which seen 35 competitors compete. I am pleased to advise that all NRB members medalled. A list of competitors and their scores can be provided upon request.

I would like to personally thank the committee and our members for all their dedication, time and effort in working together to further build on the club foundations and grow.

Regards

Thanks

Renee Parker
President

Signed on behalf of the President

Tony Watkins
Secretary
