

Mediana A16 AED

Buyer Snapshot

Semi-Automated External Defibrillator

OVERVIEW

The Mediana A16 AED gives resellers a practical, easy-to-explain AED solution for workplaces, schools, community facilities, and public-facing businesses. This buyer snapshot highlights where the A16 fits, why it is easy to position, and the core advantages that support everyday emergency readiness.

Designed for Everyday Readiness

- Workplaces & Industrial Facilities
- Offices & Commercial Buildings
- Schools & Recreation Centres
- Community Facilities
- Public Facing Businesses
- Safety Supply & First Aid Programs

Core Advantages

Clear Guidance

Voice prompts, visual indicators, and step-by-step operation help guide responders.

Semi-Automatic Operation

The responder presses the shock button only when directed by the AED.

Program Support

Compatible pads, battery, prep kit, carry bag, cabinet, and bundle options.

Adult & Pediatric Support

A dedicated mode button allows quick switching without changing pads.

Practical Maintenance

Automated self-tests and status indicators support ongoing readiness.
