≡ EXTERIOR

Drawing on Azimut carbon fiber technology and the expertise of **Stefano Righini**, who defined the concept and designed the exteriors, Grande 35 Metri offers unprecedented solutions for a boat this size, representing a masterpiece of style and space.

A wide-body megayacht with a **third level** for an additional sundeck, side garage for tender and water toys, two big beach clubs in the stern and bow and an owner's suite on the main deck with a spectacular **fold-out terrace**.

≡ INTERIOR

The interiors of the Azimut Grande 35 Metri are designed by world renowned architect **Achille Salvagni** who uses flowing lines and streamlined shapes to reinterpret various classical features from a distinctive contemporary point of view.

The various adaptations of the design share the same guiding thread, with one matt, textured type of wood juxtaposed against a darker, polished variety. A series of inserts in exclusive materials like treated brass, bronze and polished stainless steel characterize the space, giving it authority and a sense of memory.
