Visit us

At the School of Business and Management, academic excellence revolves around blended teaching and learning methods in a real-life, problem-based approach.

Through seminars, traditional lectures, labs, workshops and team challenges, students are encouraged to deepen their knowledge in a way that matters once they graduate.

At the same time, fostering a practical approach, students will have the chance to build interpersonal, transferable skills over time and throughout the programme. Employability skills – for example, teamwork, self-management, business and customer awareness, communication, literacy and numeracy – are all integral parts of the programme's teaching and learning strategy to engage students in a broad range of activities.

Mohammed Sulaiman H. Kasbar is a lecturer in accounting and nance within the Business and Management Department. He holds a PhD in Business and Management (Specialty: Accounting and Finance) from Queen Mary University of London and a MSc in Accounting and Finance from De Montfort University. Mohammed has successfully taught numerous modules in the disciplines of accounting (nancial& management accounting, and BusinessModels), nance (company valuation and financial management) and quantitative research methods at many UK HE institutions including QueenMary University of London, University College London (UCL) and De Montfort University

FLEXIBLE LEARNING

You can enrol choosing between 2 modes of delivery, thanks to our **Flexible Learning** which offers a variety of different learning opportunities to suit your needs, commitments, lifestyle and learning style.

Distance learning, giving you the flexibility to fit your study around your personal and work commitments, perfect for a busy lifestyle or when learning on campus is not an option, yet you still want the real-time experience. Study and learn through live online lectures, live webinars, as well as guided independent study delivered via our learning platform. You'll also have access to all the services including the library, student support services and IT.

A hybrid mix of distance learning where you can study and learn through live online lectures, webinars and resources to enhance and facilitate study, as well as a period attended in person in UK** combining the best of both worlds and the flexibility of distance learning to achieve a study/life balance.

** Subject to visa status and requirements.

YOUR LEARNING ENVIRONMENT

Our E-learning platform provides the right environment to learn flexibly.

Students will be able to login in their virtual classrooms, follow lessons live, interact with peers and professors, and submit coursework all in one place.

We partnered with Kaltura (leading of Education Video Platform) to provide accessible content for all, including captions, screen reader support and accessible controls which enhance engagement and overall the learning experience for those with learning disabilities.

PROGRAMME

BSc (Hons) Global Management and International Business.

The programme is designed to form managers and businesspeople with a set of capabilities that enable them to successfully manage a business in a global context

When learning about international business and management, you will need to take into consideration different cultures, paradigms and processes.

This is why this course has been designed with a global approach, reflected through our UK and European experiential learning during our residential schools around Kent, London, Rome and Paris. While learning by doing has proven to be an effective teaching method, it also provides valuable employability skills with a problem-based, practice-focused approach that every employer is looking for.

WHAT YOU WILL LEARN

With a clear and specific attitude towards knowledge that evaluates the importance of the human factor in every single aspect of management (from HR to strategy, organisational behaviour right through to marketing), our BSc (Hons) Global Management and International Business offers the future professionals of competitive global markets, the know-how to embrace change and uncertainty in order to innovate.

During your studies, you will:

- Learn management and **leadership** theories, practices and values, to fully understand business from a **global perspective**. This will be possible through the analysis of contemporary global issues, and the application of the latest research in comparative and **multidisciplinary** fields.
- Showcase critical knowledge of the tools to navigate uncertainty and complexity in the real world, while taking into account digital constraints and **ethical commitments** towards our society.
- Learn in a stimulating and engaging environment, to promote, reflectiveness and **self-awareness, employability**-awareness, through academic experience and a problem-solving approach.
