Benefits

Restaurants and businesses can benefit greatly from CubeLink for several reasons

Overall, CubeLink offers restaurants and businesses a comprehensive solution to improve customer service, increase efficiency, and adapt to the changing landscape of consumer preferences and expectations.

Enhanced customer service

CubeLink streamlines the customer experience by providing instant access to menus, ordering options, and contact information.

Efficiency

With CubeLink businesses can optimize their operations by automating tasks such as order taking and customer inquiries. This frees up staff time to focus on delivering exceptional service.

Contactless Solutions

CubeLink's NFC and QR technology enable customers to interact with businesses without physical contact, reducing the risk of transmission.

Get leverage

Leveraging CubeLink for Marketing and Technology Integration

Staying connected with customers through effective marketing and seamless technology integration is crucial for business success.

CubeLink offers a robust solution that not only enhances visibility through dynamic marketing opportunities but also integrates effortlessly with essential business technologies.

Marketing Opportunities

CubeLink provides businesses with a platform to showcase their offerings and promotions. By integrating with social media and messaging platforms, businesses can engage with customers and drive sales.

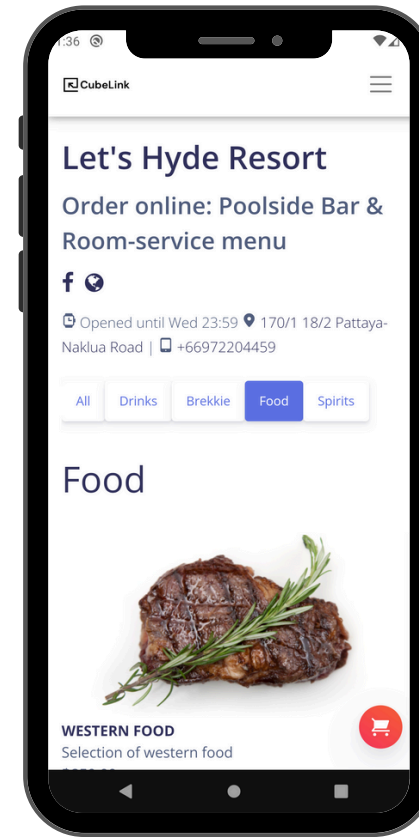

Tech Integration

CubeLink seamlessly integrates with existing technologies such as WhatsApp, Line, and Google Forms, making it easy for businesses to incorporate into their workflow.

Your own digital dining menu or store

Easily create digital menu, room service menu or online shop with our CubeLink integration.

New dual NFC & QR integration

Tap into the power of NFC & QR technology and discover a whole new level of simplicity and efficiency with our link & bio tools.

Connect to menus

CubeLink revolutionizes the dining experience by enabling customers to instantly connect with your services through a simple tap.

Connect to WiFi

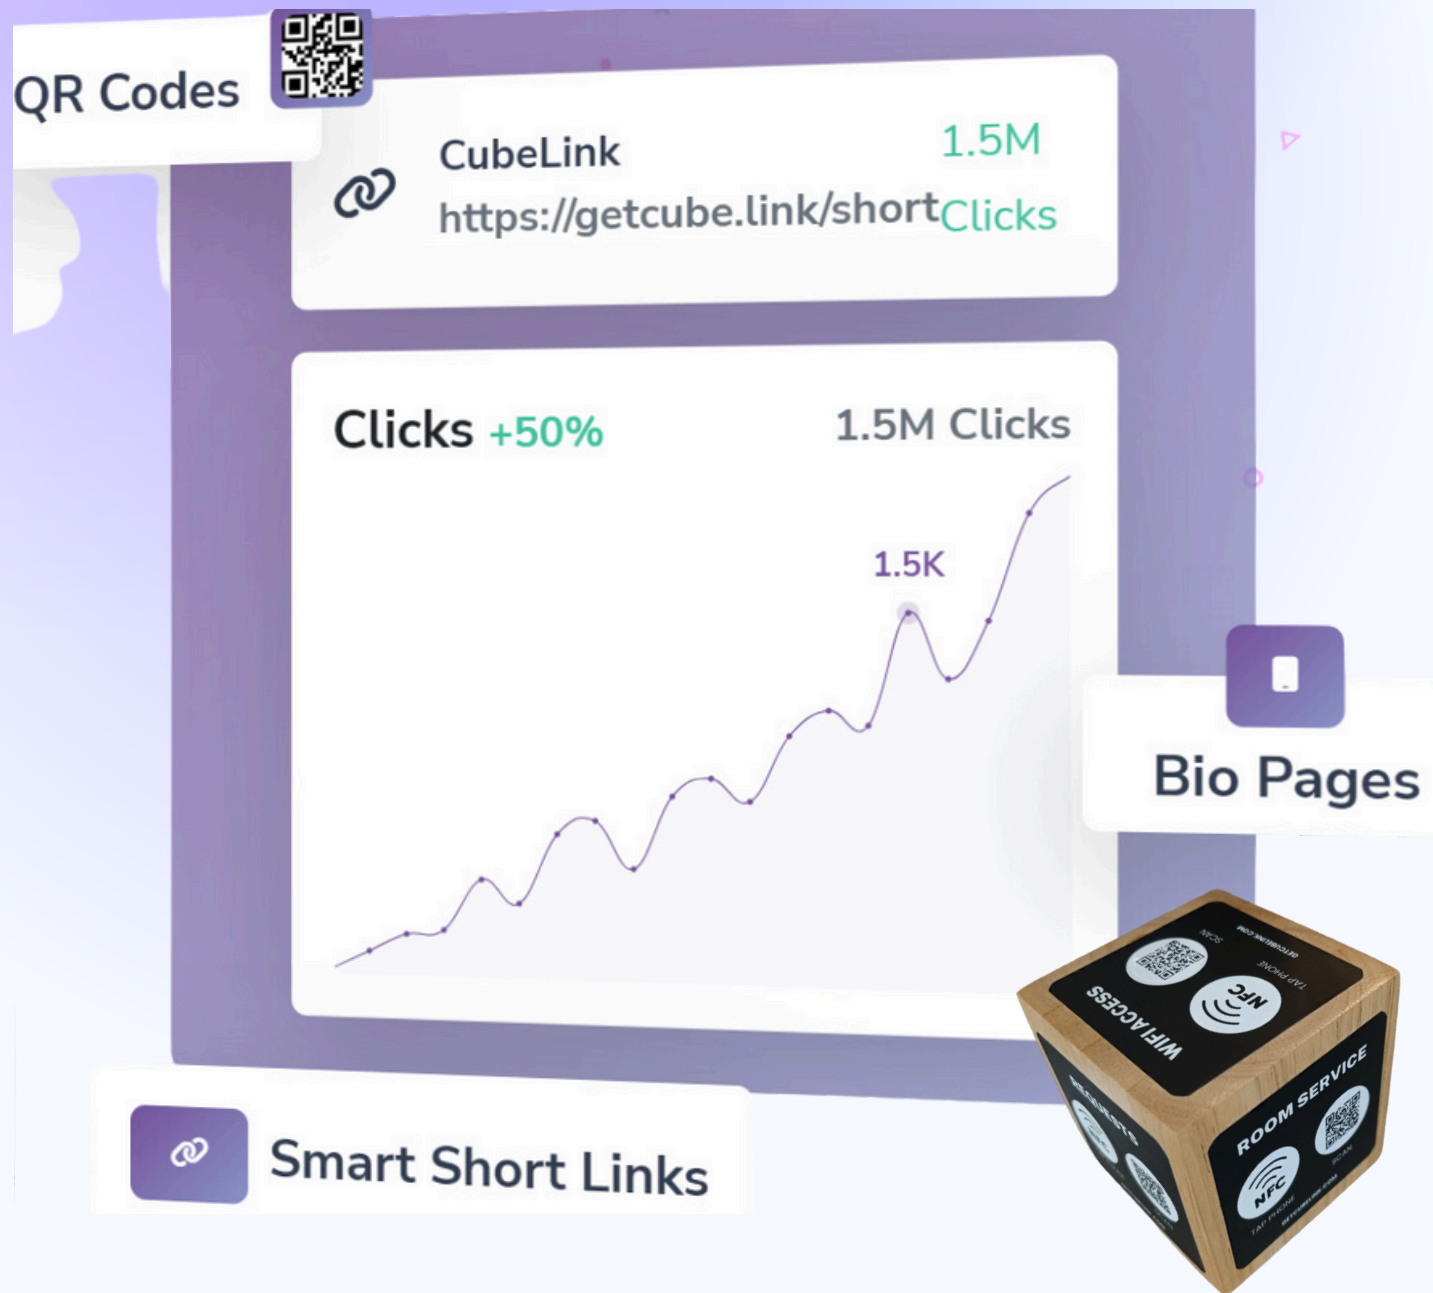

Imagine never having to type a WiFi password again. With CubeLink's contactless tap & share technology, say goodbye to the frustration of passwords.

Connect to chat

Connect customers requests to your team's WhatsApp or Line chat instantly. CubeLink integrates with our integrated request forms and online menus.
