PRODUCT FEATURES

Our Angle Broom features a 24" diameter brush with standard convoluted poly wafers, with optional galvanized spray bar. These angle brooms are compatible with most skid steer models and come with broom stand to protect the bristles during storage.

- ✔ 60", 72", 84", 96" Widths
- ✔ 24" Diameter Brush
- ✔ Universal Mounting Plate
- ✔ Broom Stand To Protect Bristles
- ✔ Optional Water Kit
- ✔ Manual or Hydraulic Options

WATER TANK OPTIONS

Optional **40-gallon** mounted water tank kit is available for effective dust control on our 72", 84" & 96" angle brooms. You have the option between a manual angle broom or hydraulic-angling up to 30° to right or left.

MADE FOR YOU, VERSATILITY

The pressures and flows are controlled to provide a consistent brooming experience across a broad range of skid steer manufacturers and models. Our hydraulically controlled angle flow ranges between 19-34 GPM, and our manual angle flow ranges between 19-26 GPM.

NOTE: This Broom Attachment CANNOT be used with a high-flow skid steer.

Wiring Options: 14 pin, 8 pin, and 7 pin OEM connectors available
