- Works with any 230/240V Pump
- Stainless grade 304 mounting bracket with quick release pins

Sizing your Mineral Perfect Chlorinator
Allow 1gram for every 2000ltrs of pool water
eg: 50,000ltr = 25grams (XT25)

The Mineral Perfect Salt water chlorinator is designed and manufactured in Australia to suit our extreme conditions using only quality electrical components and commercial grade cell materials.

Using industry proven technology, the Mineral Perfect embedded micro-controller delivers an intelligent and responsive system not only for our commercial users but also for our domestic customers that is efficient, reliable and easy to operate.

The Mineral Perfect takes into account your water temperature and salinity to help maintain the correct chlorine levels in your pool, simply enter in your settings on the LCD display, it's that easy.

The self-cleaning cell is a standard inclusion with the Mineral Perfect Salt Water Chlorinator, helping to reduce maintenance while saving you time and money. A compact fully sealed design built for Australian conditions.

For Salt Water Chlorination the Premium choice is Mineral Perfect

4 Year Warranty on the Power Pack
4 Years or 10,000hrs on the cell
(whichever comes first)
