HEATING BRILLIANCE

25% gas
quota of R410a

Average COP 10.7
93% free energy

Quiet as a fridge

SILENCE TO RELAX
YOUR MIND

HIGH COP TO SAVE
ENERGY

ABSOLUTE PERFORMANCE

Mitsubishi Twin-Rotary
Inverter Compressor

Stepless Comfort
Speed Conversion

DC Brushless
Fan Motor

Industry leading, efficient stepless DC inverter control system. With intelligent conversion of compressor, fan motor and pressure system, it provides amazing energy saving performance with max Coefficient of Performance of 16.1.

More than 93% free energy

Thanks to our industry first technology our Oceanix WaterTech Inverter creates 93% of free energy from ambient air.

Advanced Heat Pump Technology

Not only is the unit designed with superior appearance, but also powerful performance. The combination of the bulletproof Mitsubishi titanium exchanger and the simplicity of the Italian made control system put our units at the top of their class

Low Noise Operation

A fully enclosed cabinet is specially designed for the compressor so that the running noise is kept at an absolute minimum

Double-side Airflow Outlet

The unit uses double-side airflow cabinet which through years of application in the market is proven to be highly efficient in heat exchange and outstandingly silent during operation.

BUILT TOUGH

Italian Carel Controller

Garden Friendly Flat Surface Design

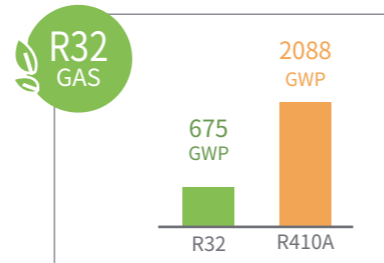

Noise Absorbing Cover

CREATING AN OASIS IN YOUR BACKYARD

01 Eco-friendly R32 or R410A

32% GWP compared to R410A 25% CO2 carbon consumption 25% quota cost.

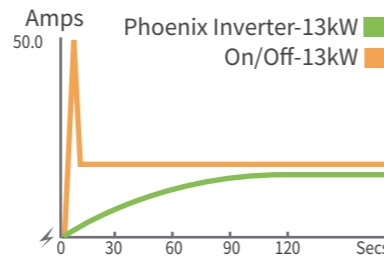

02 Smart Wi-Fi Control

Control the temperature of your pool from your lounge room, office or abroad

03 Full Protection on Electrical system

With a DC inverter compressor, Oceanix WaterTech Inverter will start from 0 amps and increase steadily.

04 Wide Voltage Application

Self-adjustment to operate in volatile power supply, voltage range can be 180V ~260V.

05 Designed to perform down to -15c

Extend your pool season!

APP CONTROL

SMART LIFE

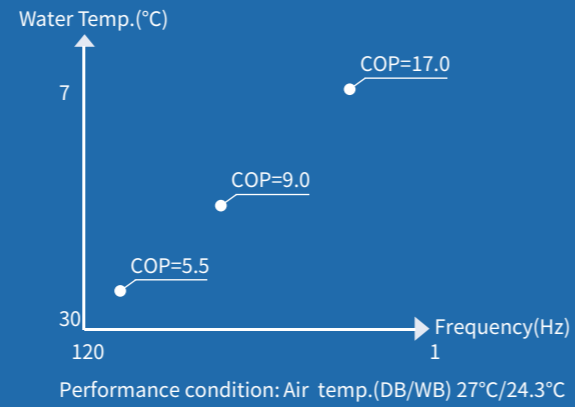

Simplify your life with SMART LIFE.

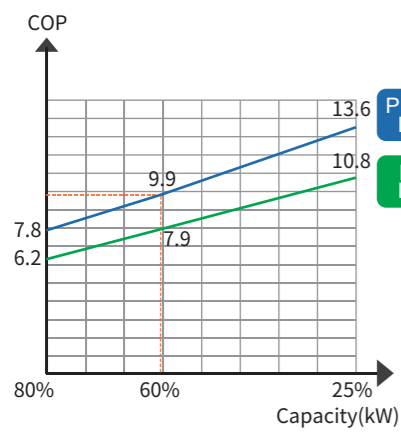

Via connection by Bluetooth, Wi-Fi and 4G, you can take full control of your swimming pool heat pump from anywhere in your home or office with a single app on your smartphone.

Inverter Pool Heat Pump Oceanix WaterTech

Inverter technology allows swimming pool heat pumps to achieve an extremely high COP in comparison with normal heat pump in the market.

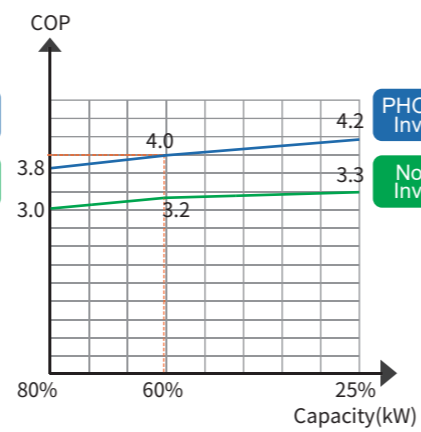

Maintain High COP in Different Ambient Conditions

Performance condition: Air 27°C/Water 26°C/Humidity 80%

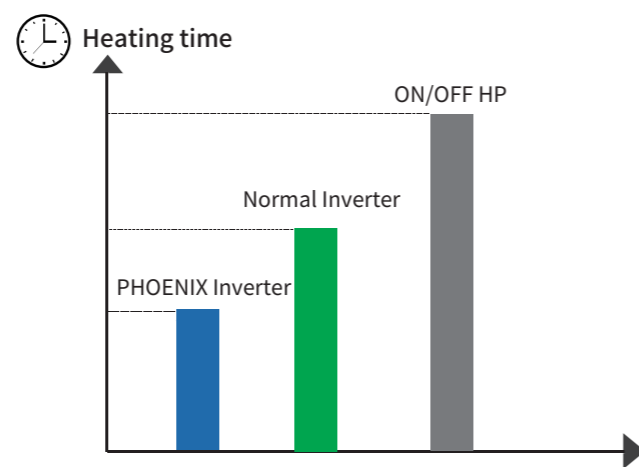

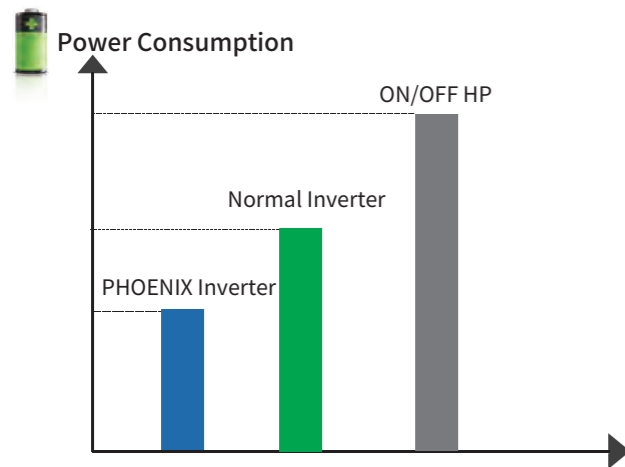

Performance condition: Air 15°C/Water 26°C/Humidity 70%

Performance condition: Air 2°C/Water 26°C/Humidity 80%

Save Energy and Speed up Heating Time

Peace and Quiet In Your Backyard

State of the art Italian Controller

- 0.1°C Precise
- Remote
- Sliding
- App
- PID Control
- Carel EEV
- Pressure Sensor

DC Inverter Swimming Pool Heat Pump (Carel Technology)

- Italian Advanced DC Inverter Technology
- Japanese Tech DC Inverter Compressor And Titanium Heat Exchanger
- Ice Defrosting, System Pressure, Water Flow Switch Protection Functions
