DEFINING MOMENTS ™ PRESS
Author AI Toolkit and Extensions Booster

AUTHOR TOOLS

#1 Chat GPT -

This replaces copywriters, virtual artists, virtual assistants and has reduced by cost by 70 to 80%. I used to hire multiple people, now I only need 1 person. This tool can help with book titles, outlines, table of contents, research, marketing plan and can even write your book based on your industry expertise and target audience.
https://openai.com/

#2 MidJourney

This is an image generator that uses A.I. to create custom images. For covers, we search for stock images and then edit or design as a book cover so it's unique. You must sign in from your discord account.
https://www.midjourney.com/

#3 Air Table

Allows you to become a programmer and build any program you want. I use this to manage our events, speakers, marketing, etc.
https://www.airtable.com/product/ai

#4 Jasper

I have used this as an editing tool for years and it can help with copywriting, research, and context.
https://www.jasper.ai/

#5 Copy.ai

This works well for authors, books and webpages.
https://www.copy.ai/

#6 Rev.com

This is a transcription service you can use to transcribe workshops, podcasts or other audio files. No time to write? Speak your book! Affordable service with a fast turnaround.
www.rev.com

CREATING CONTENT

#7 Vidyo.AI

You can upload a long form video and it gives you captions and short snippets from the long video.
https://vidyo.ai/

#8 Contentfries.com

Upload full content piece, splice it up into video content.
https://www.contentfries.com/

#9 Promptbase

The key to AI is creating prompts that drive better data or output. This site allows you to buy or sell a key prompt so it saves you more time with effective prompts
https://promptbase.com/

EXTENSIONS THAT WILL BLOW YOUR MIND

#10 Compose.ai

This is a writing tool that uses AI to help users write emails efficiently. It is a Google Chrome extension that can be added to the browser for ease of use.
https://www.compose.ai/

#11 Grammarly

This extension will help edit everything you write on the device: webcopy emails, letters, documents.
https://www.grammarly.com/

Facebook is releasing an AI chatbot and you can build your own talking chatbot. You can train it to be a coach or a copywriter.

If you want to learn how to use these tools to write your book, hop on a quick call with one of our coaches:
