## Powermesh Connected Products

Good Design Award Winner 2020.

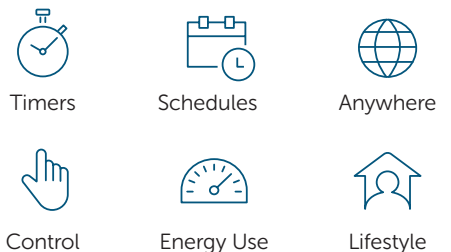

Trader's Powermesh range of connected products can provide your home with dimmers, timers, schedules, energy monitoring, phone control and Google Home voice control.

We've revolutionised the connected home. Best of all its scalable, so you can include Powermesh in any area of your build now, and then add other rooms later.

## Touch, Tap, Talk.

Powermesh products are able to be controlled by simply touching the switch, tapping with the Zimi app on your smart phone or tablet, or using your voice for hands free control and convenience. With Powermesh there are so many possibilities.
