

## Anti-Fatigue Mats

Standing for long periods of time can have a major impact on the back, hips, knees, ankles, and feet. And the resulting musculoskeletal issues can reduce productivity. Our anti-fatigue mats offer an ergonomic solution that can protect your staff and boost workplace morale.

### Durable

Made of closed-cell virgin rubber with an added antimicrobial compound, our anti-fatigue mats have a life expectancy of three to eight years. They can be used wet or dry and cleaned with any cleaner on the pH scale (0-14). Every mat includes a two-year warranty including premature wear.\*

### Lightweight

Each 3'x5' mat is ¾" thick and weighs just 12 pounds.

### Customizable

Available in black, grey, and terra cotta, these mats can be ordered in custom sizes, shapes, and die cuts. They are also available with a 3" yellow safety strip.

\* Prorated based on use

An extra long, custom anti-fatigue mat brings comfort to employees at this busy facility

*"We tested the mat ... in our leather tannery where residual chemicals include formic acid, chromium, fat liquors and dyes. ... [They] have outperformed any other product since their installation in 2012."*

– Plant Supervisor,  
Leather Shoe/Boot Manufacturer

*"Our tellers love these mats!"*

– Bank Manager

*"Thanks for the idea to contact our workers' comp company about adding this to our health and safety product list."*

– Facilities Manager,  
Medical Device Manufacturer
