

FLOZER

Anti-Bacterial Floor and Surface Cleaner, Deodorizer & Refresher

alpro®

PRODUCT DESCRIPTION

FLOZER is a strong and effective anti-bacterial cleaner and deodorizer for use on any hard surfaces such as washroom, rooms, offices and all indoor flooring. It's mild cleaning ability, combined with antibacterial properties makes it an excellent daily surface deodorizing cleaner. FLOZER removes malicious odors that cling to surfaces by eliminating bacteria that causes bad odor, and leave the cleaned surface with a pleasant scent. On any hard surfaces, it can be use as spray and wipe off. On floor mopping, simply mop and leave to dry.

FLOZER does not contain harmful solvent or harsh chemicals, therefore safe to environment and easy to handle. Recommended for use in schools, malls, buildings, factories, clinics, offices, cafeteria, hotels and many more.

Also available in various fragrances.

ADVANTAGES

- Multiple application.
- Less inventory.
- Moderate foaming.
- Environmentally and Ecologically sound – Easy disposal
- Low usage cost combined with maximized cleaning result

Rinsing	: Complete
Foam Generation	: Medium
Hard Water Tolerance	: Medium
pH	: 7 (1%)
Appearance	: Liquid, Red
Fragrance	: FLOZER
Viscosity	: 1 cps
VOC	: NIL
Shelf Life	: 24 months
Storage	: Cool and dry area

DIRECTIONS

Always wear appropriate protective clothing and read product label and safety data sheet before use.

Recommended Dilution Guide

	FLOZER	Water
General Floor Mopping	125 ML	8 L
Spray and Wipe	15 ML	1 L

FLOOR MOPPING

To mop floor surface, first prepare solution according to table above into a mop bucket. Immerse a clean mop into bucket, and wring to partially dry. Spread on to desired surfaces and leave to dry. Dispose remaining solution into sewerage.

SPRAY AND WIPE

To clean other hard surface, first prepare solution according to table above into a trigger sprayer. Spray directly onto desired surface. Keep away from food. Wipe off with a clean damp cloth.

Used mop/cloth need to be cleaned correctly after every use to prevent breeding of bacteria and viruses. When daily cleaning of a facility is finished, thoroughly rinse the mop/cloth in fresh water. Then place the mop/cloth in a new solution of FLOZER or any sanitizer for 5 minutes. Rinse the mop again in fresh water and leave to dry thoroughly.
