

PINEX BLU

Mild Viscous Pine Disinfectant Cleaner

alpro®

PRODUCT DESCRIPTION

PINEX BLU is a mild viscous, strong and effective deodorizer, disinfectant and cleaner for use in all washable hard surfaces. It contains natural pine oil that works exceptionally great as disinfectant and deodorizer by attacking bacteria that causes bad smells. PINEX BLU is combined with deep penetrating properties that looses soil for easy soil removal. It cleans, disinfects and deodorizes in one-step, thus reducing workload.

PINEX BLU does not contain harmful solvent or harsh chemicals, therefore safe to environment and easy to handle. Recommended for use in washrooms, public toilets, schools, malls, buildings, factories, clinics, offices and many more.

ADVANTAGES

- Excellent deodorizer.
- Moderate foaming.
- Environmentally and Ecologically sound – Easy disposal
- Low usage cost combined with maximized cleaning result

SPECIFICATION

Biodegradable	: Yes
Rinsing	: Complete
Foam Generation	: Medium
Hard Water Tolerance	: High
pH	: 9
Appearance	: Blue Liquid
Fragrance	: Pine
Viscosity	: Mild Viscous
VOC	: NIL
Shelf Life	: 24 months
Storage	: Cool and dry area

DIRECTIONS

Always wear appropriate protective clothing and read product label and safety data sheet before use.

Recommended Dilution Guide

	PINEX BLU	Water
Washroom	100 ML	10 L
Soiled Floor Cleaning	125 ML	10 L
Floor Mopping	75 ML	10 L
Hard Surface	10 ML	1 L

MOPPING METHOD

To clean floor surface, first prepare solution according to table above into a mop bucket. Immerse a clean mop into bucket, and wring to partially dry. Spread on to desired surfaces and leave to dry. Dispose remaining solution into sewerage.

Used mop need to be cleaned correctly after every use to prevent breeding of bacteria and viruses. When daily cleaning of a facility is finished, thoroughly rinse the mop head in fresh water. Then place the mop head in a new solution of sanitizer containing 50 ML of PINEX BLU to 5 liters of water for 5 minutes. Rinse the mop again in fresh water and leave to dry thoroughly.

SPRAYING METHOD

To clean other hard surface, first prepare solution according to table above into a trigger sprayer. Spray onto desired surface and wipe off with a clean and dry cloth. Avoid spraying near to food and food preparation area.
