

Disinfectant Mats

Outdoor Scraper Mats

Scrapes, Cleans and even Disinfect them before and after entry to designated areas.

- Thousands of flexible fingers dislodge contaminants from footwear using automatic scrubbing action
- As traffic passes, rubber tips bend under pressure to immerse soles in disinfectant solution, keeping contamination from reaching food processing areas
- Thick surrounding border stands 6.5mm higher than finger-scrapers to contain up to 4.5 litres of disinfectant solution*
- Convenient mat size that fits most doorways features suction cups on underside to prevent mat from shifting
- Made from a tough natural rubber compound designed to resist to most chemicals and variations in temperature
- Use at doorways, packaging areas, laboratories, locker rooms, break rooms, refuse areas and receiving rooms - anyplace where spread of contamination must be limited

***Tip:** use quaternary ammonium, iodine, chlorine or any other sanitiser but always test its concentration. Most sanitisers are concentrated and must be diluted before use in a footbath. Follow label directions for appropriate dilutions.

Disinfectant Mats (Footbath)

Profile Height	16mm	
Material	Rubber	
Properties	Anti-Slip, Temperature Resistance	
Sizes	81cm x 61cm	100cm x 81cm
Weight	5.7kg/pc	10kg/pc
Solution Capacity	up to 4.5litres (approx.)
