What to Expect:

Inspiring presentations providing concise insights into cutting-edge technologies, best practices, and successful digital transformation initiatives from real-world applications.

Hands-on workshops offer interactive 90-minute sessions, enabling participants to test new tools directly and gain skills that can be applied immediately.

Direct exchange with **high-profile experts in small groups** offers exclusive insights into current challenges and practical solution approaches.

With up to 650 international participants, the symposium offers **first-class networking opportunities**—from in-depth technical discussions and exhibition tours to a relaxed evening event.

Guided Tours through the exhibition showcase innovative technologies, solutions in action, and fresh impulses for optimizing your own business processes.
