# Passwords

**The PeterIT Way**

## Do's and Don'ts

Never write your password down

Never tell a stranger your password

Never tell someone on the phone your password

Change your password regularly

Have a **different** password for **each website**

# Passwords - The PETERIT Way

## Basic How To:

Phrase (you can write this down to practice)

Add some numbers

Add some characters

Add something unique about the website

Let's practice in 4 easy steps .....

# Passwords - The PETERIT Way

Let's Practice:

## STEP 1

Phrase - Peter Peter Pumpkin Eater (make up your own)

Take the first letter of each word - **pppe** (you could use the another letter if you wanted to change it up - **eeua**)

This forms the core of your password - Don't forget to throw in a capital letter or two randomly.

**pPpe**

Let's Practice:

## **STEP 2**

Add 2 numbers (random number / part of your phone number / the day you got your pet). So now it looks like this

**pPpe18**

or could look like this 18pPpe, or this 1pPpe8 or pP18pe

# Passwords - The PETERIT Way

Let's Practice:

## STEP 3

Add some characters (2 more numbers) and we will use 3 & 4 with the shift key down.

**pPpe18#\$\$**

# Passwords - The PETERIT Way

Let's Practice:

## STEP 4

Something about the Website (first 3 letters)

**pPpe18#\$ama**

or the lasts 3 letters looks like this

**pPpe18#\$zon**

A few last things.....

Remember your baseline pattern

Practice before you change your password

Remember the Do's and Dont's

Enjoy your new passwords.
