Safety In Numbers – D&D and Codelocks Join Forces

World's Most Trusted Gate Hardware

D&D Technologies is the recognized leader in safety and hi-performance gate hardware globally providing the broadest range of gate hardware for every application. D&D Technologies produces over 300 gate hardware products and has over 30 years of experience in the gate hardware industry. D&D's diversity of products continually sets new standards in design, performance, craftsmanship and innovation–tied together by a top level of quality and service. D&D Technologies operates a fully accredited and internationally recognized ISO 9001:2015 Quality Assurance System, which governs the design and manufacture of all our products. The stringent guidelines of this system ensure the highest standards of quality, safety and efficiency are maintained.

Simple and effective access control

Founded in 1991, Codelocks Inc., a leading access control company, designs and distributes a wide portfolio of innovative, standalone keyless locks and access products for a range of growing markets.

In December 2020, Codelocks announced Gate Solutions by Codelocks, comprehensive kits that include all components needed for simple and effective access control for gate and fence installations. Gate Box Kits include a Codelock, latch and accompanying lock box and hardware. Gate Panic Hardware Kits are also available and include the Codelocks Panic Bar, Panic Trim and accompanying panic hardware components. This solution is ideal for any restricted area that will benefit from controlling access including commercial or residential environments like schools and colleges, hospitals, hotels and backyards.
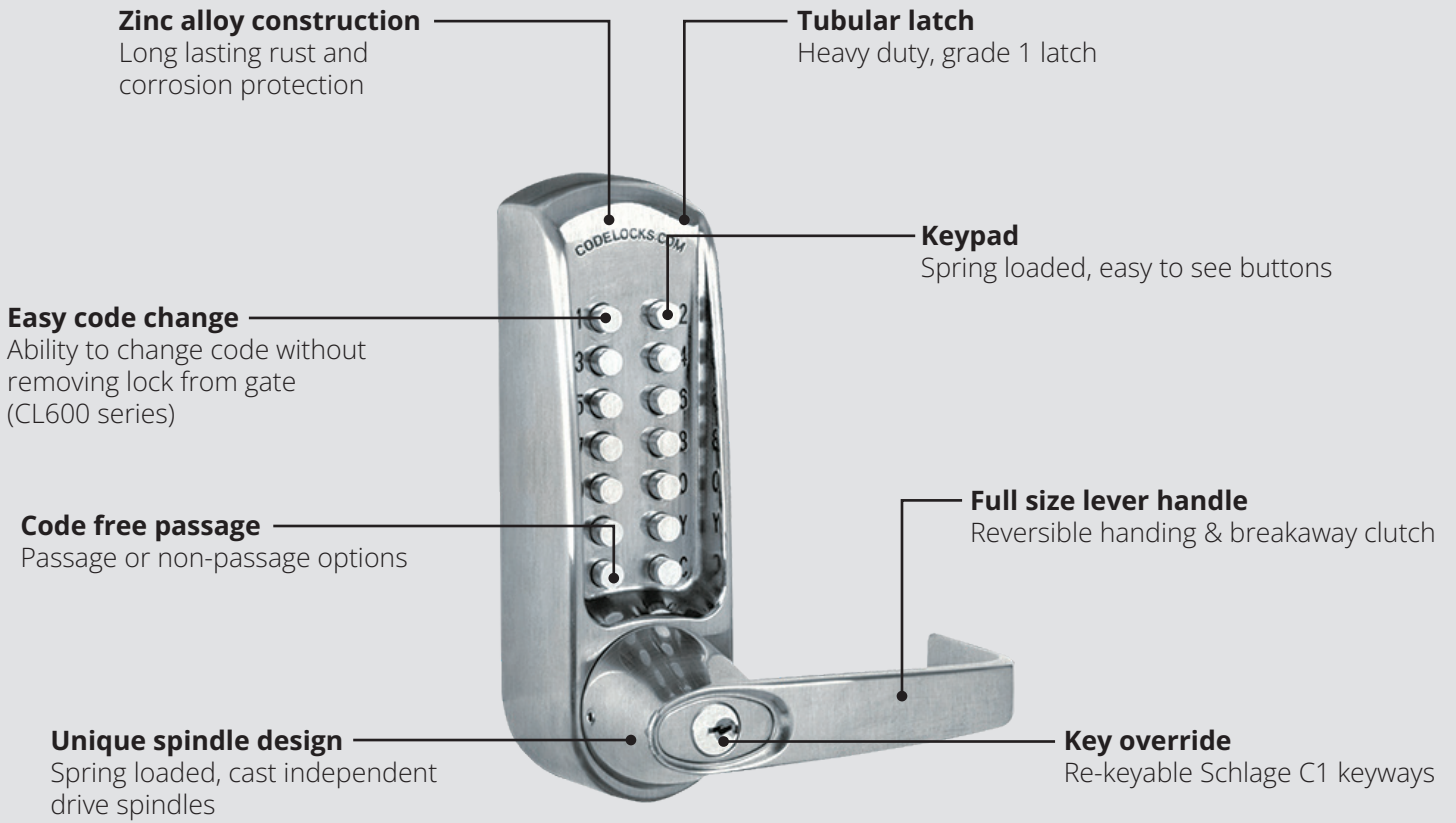

The Gate Box Kits and Gate Panic Hardware Kits contain all components required for straightforward installation. Featuring adjustable strike plates, dual backplate installation options as well as exit device hardware and accessories, these kits are fully versatile. Not recommended for use on swimming pool safety gates.

Codelocks Warranty

Codelocks Inc. warrants all products to be free from manufacturing defects in material and workmanship. Limited Lifetime Warranty on Mechanical models. 2 Year Limited Warranty on Electronic models.

Codelocks Inc. warrants its finish with a ONE Year Limited Warranty against TARNISHING on both the Electronic and Mechanical locks to the original purchaser or premise owner at the location originally installed. This warranty does not cover damages from scratches or abrasions, abuse, or misused products, effect of climate conditions, or damages from chemical or abrasive actions from harsh or caustic cleaning materials, methods or polishing practices. All finishes warranties are limited to Codelocks Inc. locksets and components only.

Zinc alloy construction
Long lasting rust and
corrosion protection

Tubular latch
Heavy duty, grade 1 latch

Keypad
Spring loaded, easy to see buttons

Easy code change
Ability to change code without
removing lock from gate
(CL600 series)

Code free passage
Passage or non-passage options

Full size lever handle
Reversible handing & breakaway clutch

Unique spindle design
Spring loaded, cast independent
drive spindles

Key override
Re-keyable Schlage C1 keyways

Stainless Steel, Brushed Steel or Black Marine Grade finishes available
Suitable for metal, wood, vinyl and chain link gates
Back to Back option available

Clear Protective Cover For Electronic and Smart Locks
UV-stabilized cover protects against abuse, damage and water.
Cover included with standalone Electronic and Smart Locks (aka "battery operated"),
and in Gate Box and Gate Panic Hardware Kits.

CODELOCKS

Delivering effective coded locks designed for gates and outdoor environments.
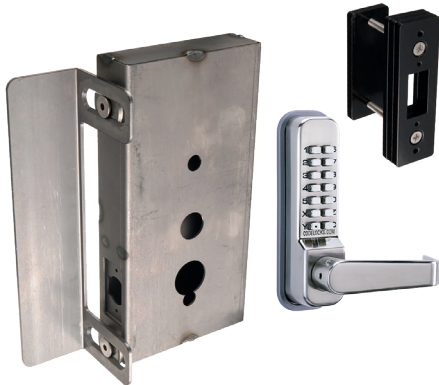

DDCL610 Mechanical

DDCL5210 Electronic

DDCL5510 Smart Lock

Gate Solutions by Codelocks can be ordered in two ways: as a complete kit with a gate box or as single lock

Gate Box Kit
Contains all components required for a straightforward installation.

Gate Panic Hardware Kit
Contains all components required for quick installation.

Industry exclusive kit includes: Gate Box, Lock, Latch Bracket & Stop Bracket

Gate Box Kit models are shown in orange boxes in each product category

Kit includes: Lock, Trim Box, Panic Bar, Latch Bracket with U-bolt Fastener, Latch Protector, Panic Shield, Anti-Theft Manipulation Device

Gate Panic Hardware Kit models are shown in green boxes in each product category.

Popular Mechanical Residential Locks

DDCL200 Mechanical

Premium range of light duty mechanical locks. Multiple options available suitable for a wide range of applications. Allow various ways to manage entry - by code, key or hold back feature operations. The key can be used to retract the latch without the need for the code.

SKU	MODEL FEATURE	GROSS WGT PER UNIT	COLOR/ FINISH	EACH/ PAIR	FASTENERS INCLUDED
DDCL200KSS	Surface Deadbolt, Key Override	1.54	Stainless Steel	Each	Yes

Industry Exclusive Gate Box Kit

Gate Solutions by Codelocks can be ordered two ways: locks separately or a complete kit containing all items for gate and fence installations. The industry exclusive Gate Box Kits provide a simple, complete and effective access control solution for fenced perimeters / outdoor spaces.

Gate Box Kit contains: Gate Box, Lock, Latch Bracket, Stop Bracket & Clear Protective Cover

DD CL610 Mechanical
Heavy duty locks with on-gate code changes and key override. Code free passage function and back to back options available.

DD CL4200 Electronic
Medium duty electronic lock with tubular latch, full size lever handles and key override. Up to 80 User Codes.

DD CL5210 Electronic
Heavy duty electronic lock with tubular latch, full size lever handles and key override. Up to 80 User Codes.

DD CL4500 Smart Lock
Medium duty smart lock. Combines smart technology with traditional keypad and RFID access credentials. Up to 350 Clients.

DD CL5510 Smart Lock
Heavy duty smart lock. Combines smart technology with traditional keypad and RFID access credentials. Up to 350 Clients.

Stainless Steel finish

Brushed Steel finish

Black Marine Grade finish, specially enhanced to withstand harsh outdoor environments and coastal applications

CODELOCKS

Gate Panic Hardware Kits

Gate Solutions by Codelocks provides simple and effective access control solutions for fenced perimeters / outdoor spaces. Gate Panic Hardware Kits contain all components required for a straightforward installation. Suitable for outdoor applications.

Gate Panic Hardware Kits contains

- **Panic Bar**
- **Components**
  - Adjustable latch bracket with u-bolt fastener
  - Anti-Theft manipulation device
  - 24" tall latch protector
  - Specified, pre-drilled trim box
  - 24", 2-piece panic shield adjustable to suit 30"- 54" wide gates
- **Panic Trim**
  - The selected Codelock in its box containing installation, operating / programming instructions and fastening bolts, or a key cylinder box for keyed gates.

DD CL610 Mechanical
Heavy duty locks with on-gate code changes and key override. Marine Grade finish available.

DD CL5210 Electronic
Heavy duty electronic lock with tubular latch, full size lever handles and key override. Up to 80 User Codes.

DD CL5510 Smart Lock
Heavy duty smart lock. Combines smart technology with traditional keypad and RFID access credentials. Up to 350 Clients.

 Stainless Steel finish

 Brushed Steel finish

 Black Marine Grade finish, specially enhanced to withstand harsh outdoor environments and coastal applications

Shut It® Barrel Hinge - CI3950
- No greasing or maintenance on sealed bearings. EVER!
- Horizontally adjustable
- High-temperature sealed bearings – safe to powder coat with hinges installed on gate

Codelocks Panic Trim
- Heavy duty locks
- On-gate code changes
- Mechanical, Electronic or Smart
- Tested to Grade 2 ANSI-A156.2

Codelocks Gate Box
- 14-gauge steel
- Pre-drilled for Codelocks locks
- Powder coated using RAL #7035

Codelocks Anti-Theft Manipulation Device

Codelocks Panic Bar
- ANSI Grade 1
- Stainless steel

Codelocks Adjustable Panic Shield
- Adjustable to suit 30" – 54" wide gates

Codelocks Latch Bracket
- 16-gauge steel
- Powder coated using RAL #7035
- Adjustable up to 3" gate gap

Marine
by Codelocks

Marine by Codelocks, locks you can rely on.

The Marine by Codelocks range of mechanical locks feature a specially enhanced, salt spray tested* black marine grade finish to better withstand harsh outdoor environments and coastal applications. They're the same convenient, easy-to-use locks with a tougher exterior.

Following an expansion to the range, it now includes selected locks from the DD CL200, CL400, CL500 and CL600 mechanical ranges, offering the benefits of key override options as well as lever and ball knob handles. Reliable and durable, these locks are ideal for external applications; outbuildings, construction sites, marinas and homes by the water.

*Up to 1000 hours, tested in-house by Codelocks Ltd.
