

Directions for Use and Storage

Add 6-8 drops per 250 ml. / 24-32 drops per liter of water depending on water quality. Mix well and wait at least 5 minutes before consuming treated water.

Within 24 hours the inert dissolved pathogens/toxins will be completely separated from the water and visible. This inert matter (ash) will sink to the bottom of container and is harmless to consume. To remove this inert matter from the water use proper filtration. Store the Auro solution between 7-35 degrees Celsius with no direct sunlight.

This 945 ml. bottle treats up to 950 liters of water.

Caution

Do not use without properly diluting this product as instructed according to this label. If Auro solution is accidentally swallowed without diluting make sure to drink plenty of water. If product gets into eyes immediately flush with water. If irritation persists seek a medical professional.

Please keep out of children's reach.

WATER PURIFICATION SOLUTION

The Gold Standard in Water Purification

All Natural

945 ml.

We believe that the Auro Solution is the most important commodity of our future! Our world's natural bodies of fresh water are being destroyed by pollution and toxicity. The Auro Solution is extracted from and comprised of the earth's most powerful mineral salts. It is able to purify, correct and restore our water back to its natural, living state. Since there is nothing more valuable for all living things on earth than fresh, clean water, we named this product Auro (real gold in Latin). By replacing these healing minerals with the Auro Solution we can simply clean our water anywhere instantly, one drop at a time. Backed by EPA certified lab (USA) results the Auro Solution eliminates or reduces harmful bacteria, chlorine, chloramines, THMs, VOC's, sodium fluoride, heavy metals (lead, arsenic, mercury), pharmaceuticals, microcystin, hexavalent chromium, BPA and cloudiness from water. This solution gives water a superior taste, smell and quality.

Ingredients

Active Ingredient: Sulfate group minerals 2%

Inactive Ingredient: Purified Water 98%

Sulfate Group Minerals:

S, Fe, Al Mg, K, Ce, Ca, P, Na, Se, Si, Ge, Zn, Mn, La, Rb, Y, Sc, Sr, Cu, Co, Ni, Mo, Li, V, W Ba Ti, Zr, Cr.

Mineral content may vary slightly as a natural substance.
