Pipes | Pumps | Solutions

CHPPS PUMP ACCESSORIES

1	ISOLATION VALVES		<ul style="list-style-type: none"> • Ball valves. • Butterfly valves. • Wedge gate valves. • Supplied to pipeline pressure requirements. • Supplied to client specifications.
2	FLOW CONTROL		<ul style="list-style-type: none"> • Up to 300NB, Maric flow control valve. • Above 300NB, ACV flow control valve. • Supplied for flow rate required. • Supplied to pipeline pressure requirements. • Supplied to client specifications.
3	EXPANSION JOINTS		<ul style="list-style-type: none"> • Metal expansion bellows. • Rubber expansion bellows. • Supplied to pipeline pressure requirements. • Supplied to client specifications.
4	CHECK VALVES		<ul style="list-style-type: none"> • Silent check valves. • Swing check valves. • Supplied to pipeline pressure requirements. • Supplied to client specifications.
5	FLOW METERS		<ul style="list-style-type: none"> • Magflo flow meters • Ultrasonic flow meters. • 4 - 20mA to PLC. • Supplied to pipeline pressure requirements. • Supplied to client specifications.
6	CONTROL VALVES		<ul style="list-style-type: none"> • Surge protection control valves. • Pressure control valves. • Supplied to pipeline pressure requirements. • Supplied to client specifications.
7	AIR RELEASE VALVES		<ul style="list-style-type: none"> • Air release valves. • Air and vacuum valves. • Supplied to pipeline pressure requirements. • Supplied to client specifications
8	PRESSURE GAUGES		<ul style="list-style-type: none"> • Mechanical pressure gauges • Supplied to pipeline pressure requirements.
9	PRESSURE TRANSDUCERS		<ul style="list-style-type: none"> • 4 - 20mA to PLC. • Supplied to pipeline pressure requirements.
10	LEVEL TRANSMITTERS		<ul style="list-style-type: none"> • 4 - 20mA to PLC. • Supplied to suit borehole depth.
11	COOLING SHROUD		<ul style="list-style-type: none"> • Shroud supplied in accordance with OEM requirements.

TYPICAL HEADER WORKS INSTALLATION

Carl Hamm

Pipes | Pumps | Solutions

Competence, experience, innovative thinking, modern manufacturing plants and motivated employees form the basis of our services.

With the flexibility of a modern, medium-sized company and the experience of our over 90-year history, we are well equipped to meet the requirements of the future.

The numerous certifications and technical approvals of course ensure that we serve our customers with the highest quality standards through the complete project phases.

Our product range focuses on water, waste water and power industries, tunnel construction and well sinking as well as open-pit and underground mining.

We as a competent partner ensure an added value for the specific customer needs: from the conceptual planning to professional production and punctual delivery.
