My Story

Hi, I am Marlene Nel, owner of Mafuta's Taxidermy. Starting in 2004 as a hobby, turning into a full time business. Mafuta's Taxidermy is a high risk veterinarian approved facility and I'm proud to say that we export trophies to all corners of the earth. All trophies are handled with great care and passion, by myself and my team. Giving lasting dignity to every animal I touch and capturing lasting memories for you the hunter. Taxidermy is my passion. Hunters are the true conservationists.
