

Aromatherapy Certification Course Outline

Aromatherapy Certification is a 200-hour aromatherapy course designed for the health professional, essential oil distributor, or layperson interested in the therapeutic uses and applications of essential oils. You will be provided with a clear and concise understanding of aromatherapy and how to use oils safely and effectively. It includes many aspects of aromatherapy, including essential oil botany, essential oil usage, essential oil chemistry, business ethics, and practices.

Course Code: ACP12
Duration: 12 Months
Modules: 10 Modules
Course Tuition: \$1497

ABOUT THE INSTITUTE

The *Aroma Hut Institute* is a leading industry-recognized educational provider providing accessible, affordable, and quality training in aromatherapy since 2013. Graduates are eligible for registration with the National Association of Holistic Aromatherapy (NAHA).

WHY STUDY WITH US?

- Full tutorial support is available from fully qualified clinical aromatherapists.
- Study from the comfort of your own home with no need to travel to the Institute.
- All your written course materials are included in the fees outlined. Students will be responsible for lab supplies such as essential oils, bottles, and perfume strips.
- Both theory and interactive practical tasks are included in your assessments.

WHAT YOU WILL GAIN FROM OUR CERTIFICATION PROGRAM:

- Confidence in using essential oils in self-care and for natural healing.
- How to launch a new business or career in aromatherapy.
- Enhance and boost your existing career through the use of essential oils.
- Knowledge in how essential oils work so that you can share essential oils with others based on scientific research.
- How to perform private consultations with clients for improving their health by offering guidance on which essential oils to use.
- Discover which essential oils are best for aches and pain, respiratory issues such as allergies, emotional issues, and more.
- Learn blending techniques for making essential oil blends for body care products, such as bath salts, perfume sprays, lip balms, muscle salves, and more.
- Start your own private line of skincare products, how to teach aromatherapy, or start your own school.
- Learn advanced methods that integrate the chemistry for natural products that are safe for children, pregnant, nursing moms, the elderly, or animals.
