

AROMATHERAPY TEACHER TRAINING

Teacher Training Course provides professional aromatherapists the opportunity to craft and hone effective teaching methods for facilitating essential oils classes. You will benefit from Rebecca's own professional training curriculum, and get hands-on experience from an expert. With this interactive material, you will brainstorm and develop unique and interesting aromatherapy classes and workshops, class outlines, and most importantly hands-on activities that will keep your students involved and wanting more!

The course includes supplement PowerPoint presentations for each module, supplemental videos, over 22 essential oil profiles that can be used to teach with, a student manual that can be used as-is or piecemeal to create your own unique course, sample outlines, supply lists, and a done-for-you introductory essential oils class that you can take and teach right away.

Course Code: TT3
Duration: 1 Month
Modules: 5 Modules
Course Tuition: \$997

ABOUT THE INSTITUTE

The Aroma Hut Institute is a leading industry-recognized educational provider providing accessible, affordable, and quality training in aromatherapy since 2013. Graduates are eligible for registration with the National Association of Holistic Aromatherapy (NAHA).

WHY STUDY WITH US?

- Full tutorial support is available from fully qualified clinical aromatherapists.
- Study from the comfort of your own home with no need to travel to the Institute.
- All written course materials are included in the fees outlined. Students will be responsible for lab supplies such as essential oils, bottles, and perfume strips.
- Both theory and interactive practical tasks are included in your assessments.

WHAT YOU WILL GAIN FROM OUR CERTIFICATION PROGRAM:

- Confidence in using essential oils in self-care and in a healthcare setting.
- Understand basic pharmacokinetics and how essential oils are metabolized.
- Enhance and boost your existing healthcare career with the medicinal use of essential oils.
- Knowledge of how essential oils work so that you can share essential oils with others based on scientific research.
- How to perform private consultations with clients to improve their health by offering guidance on which essential oils to use.
- Discover which essential oils are best for aches and pain, respiratory issues such as allergies, emotional issues, etc.
- Learn advanced blending techniques for making aromatic medicine such as cough drops, cough syrup, pessaries, suppositories, gummies, honey, sitz bath, compresses, etc.
- Review Anatomy and Physiology for each body system and study pathophysiology for each body system and their effects on homeostasis.
- Discover new techniques for blending for ailments or conditions for each body system.
- Learn advanced methods that integrate the chemistry for natural products that are safe for children, pregnant, nursing moms, the elderly, or animals.
