Main Chemical Components: Trans-cinnamaldehyde, cinnamyl acetate

PRIMARY BENEFITS

- May promote healthy digestion when taken internally†
- Supports healthy cardiovascular, metabolic, and immune function when taken internally†
- Provides a warming, uplifting aroma

Cassia

Cinnamomum cassia 15 mL

30020001

Wholesale: \$21.00

Retail: \$28.00

PV: 21

PRODUCT DESCRIPTION

A close relative to Cinnamon, Cassia has a strong, spicy aroma that can be used in small quantities to transform any essential oil blend. Cassia has been used for thousands of years for its many health benefits. It's one of the few essential oils mentioned in the Old Testament, noted for its unmistakable fragrance and calming aromatic properties. Cassia is a "warming" oil that helps promote healthy immune function when ingested.† Experimental research suggests that internal use of Cinnamaldehyde, a major constituent of Cassia, may support a healthy gastrointestinal tract.† Cassia is a great oil to diffuse during cold months due to its warming properties and spicy scent. Due to its caustic nature, Cassia should be diluted with a carrier oil when applied to the skin and can be very strong when inhaled directly. When diluted and applied topically, Cassia can help soothe the body. Cassia can be used in cooking either as a replacement for Cinnamon in pies and breads or by itself in a myriad of entrées and desserts.

USES

- Diffuse during winter months for a festive aroma.
- Take one to two drops in veggie capsules for added immune support.†
- Combine one drop with a carrier oil and massage for a warming sensation.
- Add one to two drops in a glass of water to support healthy digestion and metabolism.†

DIRECTIONS FOR USE

Aromatic use: Use three to four drops in the diffuser of choice.

Internal use: Dilute one drop in 4 fluid ounces of liquid.

Topical use: Dilute one drop essential oil to 10 drops carrier oil. See additional precautions below.

CAUTIONS

Possible skin sensitivity. Keep out of reach of children. If you are pregnant, nursing, or under a doctor's care, consult your physician. Avoid contact with eyes, inner ears, face, and sensitive areas.
